HUMBOLDT COUNTY REPORTS 160 COVID-19 CASES FOR THE MONTH OF JUNE

WINNEMUCCA, Nev.—Humboldt County has been notified of 160 new cases of COVID-19 from Wednesday, June 1, through Thursday, June 30, bringing the county's cumulative total to 3875.

This total does not include positives from home-based or over-the-counter tests, as they are not included in official counts. In comparison, 27 positive cases were reported for the month of May.

The county has 3787 recovered and 29 active cases. During the month, 20 people have been hospitalized; six people are currently hospitalized. In all, 59 county residents have died from the virus, including a woman in her 90s who passed away on June 22, 2022.

In other news:

- The City of Winnemucca will stop testing wastewater within the city limits for cumulative levels of SARS-CoV-2 RNA on July 12. The health board will no longer be able to use wastewater as a predictor of COVID-19 activity in the community, so please continue to be watchful of symptoms and test, quarantine and/or isolate as necessary. [View the latest graphs here.](#)
- Humboldt General Hospital has closed its COVID-19 screening clinic. Patients now screen for COVID-19 through the Walk-In Clinic or through their HGH healthcare provider; three parking spots have been designated in front of the hospital's Mizpah Street side entrance where patients are tested. All patients and/or visitors must wear masks.
- Humboldt General Hospital is offering COVID-19 home tests free of charge at its main entrance and in patient clinics.
- If you suspect you have been exposed to COVID-19, if you are experiencing COVID- like symptoms, or if you have tested positive for COVID-19, please follow [this guidance](#) very carefully to mitigate the spread of the virus.
- Community Health Nurse Marsha Foreman retired in April and no replacement has been hired. The office is not currently offering COVID-19 vaccinations; however, vaccinations are still available through the Walmart and Ridley's pharmacies.
- As of today, 18,110 (+137) total COVID-19 vaccine doses have been administered including 8,203 (+26) initiated doses and 7,251 (+4) second doses. Currently, 48 percent of our population has initiated vaccination and 42 percent has completed vaccination. In all, 52 percent of our population over age 5 has initiated vaccination.

- Of June’s 160 reported positives, 66 or 41% were fully vaccinated, meaning a person completed a vaccine series, whether one dose or two, and two weeks have passed. A person does not have to be boosted in order to be considered fully vaccinated.
- Humboldt County has had six breakthrough infections, meaning a fully vaccinated person who was hospitalized. All six persons have since been released. Per the information provided by the State of Nevada, Humboldt County has had one fully vaccinated death.
- Humboldt County is a low-risk transmission area according to the Centers for Disease Control [county tracker](#).
- As a reminder, as of February 10, 2022, Nevada no longer requires masks in public places; however, employers and organizations, including school districts, have been encouraged to set their own policies as needed.
